

# First Baseman Leads Hitters

Incomplete batting averages released today by Vincent Lawrence, Morehead City statistician, show the team's first baseman, Kelly, way ahead of the rest of the team with a heavy .422, representing 33 hits out of 78 trips to the plate.

Wallace, new catcher recently added to the team, is coming up fast in team averages and probably will head Kelly within the next two or three weeks. In his short stay with the team he has hit 10 times out of 21 trips to pile up a .476 lead.
