“When we leave the court tonight, let's make sure we are proud of one another.” That was our pre-game slogan this year. I am proud of this team's accomplishments, as everyone should be. The 80-81 Lady Mariners had more victories than any other girls in nearly a decade. As their coach, the biggest source of pride comes from the girls themselves. Not only are they quality basketball players, but they are leaders in the classroom as well. Another big source of pride for me is that every player contributes. We have developed a strong bench and we don't have any 'last second players'. So far we have accomplished every goal we have set for ourselves except one—A Championship. I believe next year could be that year.”
