

VARSITY FOOTBALL

This years' Varsity Football program excelled once again. No, I'm not talking about their record or how many points they have scored. I'm talking about the pride in one's team and the dedication that it takes to play this grueling game. From August 1 through November 7, thirty-two young men put their bodies on the line for two and one-half to three hours a day. Broken fingers and collar bones were often what some people had to play with. If a teams' win-loss record was based on effort, West Carterets' Varsity Football team probably would have won the State Championship!! But for those who really want to know what our record was this year ... Well, we did win the HOMECOMING GAME!!!
