This season's Varsity Women's Softball Team had a record of three wins and fifteen losses, which did not reflect the amazing ball season that they had. Coach Bob Joyce said the following about the team: "The Varsity team of 2000 played some outstanding softball games this season. The record does not show the competitive intensity that we played with at times. For 75% of our season we were the best 'five inning' team around. We lose two exceptional seniors this year: Holly West and Jahara Hojilla, both of whom will continue their softball careers in college but they leave behind some young and determined talent for next season that will be filled with growth and pride. There will be nine returning players, and several JV players will be expected to move up to help improve the team next year."

Coach Joyce gave the following awards at the spring sports banquet: Most Improved: Jennifer Williams, Most Valuable: Holly West; and Coaches Award: Jahara Hojilla.
