"1-2-3 Boyd!"

"Making History"

The 2003 West Carteret Varsity Football team had a history making year by venturing into the second round of the state playoffs. No team in school history has ever won a playoff game until this year. The team faced much adversity early losing some very close games but they bounced back and won 3 out of the last 4 games to make this season a success. Then the team "shocked the world" when they upset the number 2 team in the east and advanced to the second round. When asked about the season Coach Watford said, "It was a very eventful season. We entered this season optimistic that it would be a landmark year in the annals of West Carteret Football. I am very proud that by the end of the year we performed up to those expectations."
