"Dnc heartbeat" 

Coach Turner returned to West to head the football program this year and the players were excited to have him back. The new 3A/4A conference, however proved too much for the team to overcome as they finished the season 0-11. In spite of their record, they continued to work hard and improve, and everyone remained optimistic. One thing the team learned from the season is the need for a greater commitment to the weight room and football in general. Coach Turner believes that the program is on the rise at West, and he remains hopeful for next year.

"This year was fun and gives us better hope next year" says defensive lineman, Hugh Parker.
