### "Our Tree of Success"

We are the carefree Seniors of forty-one  
Seeking the place where our success tree is grown.  
It's a long and lonely road we have to trod  
But we will find our Master, the Son of God,

And be guided by His tender and loving hand,  
To the place where our success tree should stand.

We should always smile and hold our heads high,

And utter not a word nor bring not a sigh,

If we do not find the wealth of peace and happiness

But try and try 'till we do find success.

It may take us months, it may take us years,

But our Master will tell us to shed not our tears.

Some of us will travel far and near

Without a hesitation of without a fear,

While some of us will stop before we find the button we should press,

That will open the door and lead us to success.
